

## International Military Academic Forum (iMAF) 2021

### International Military Academic Forum (iMAF) 2021

Three representatives of the Military University of Aviation Staff and two cadets took part in the International Military Academic Forum 2021 (iMAF) which happened on the 21st and 22nd of September 2021. This year's meeting was attended by representatives from sixteen military universities. The main goal of the event was to strengthen, develop and analyze cooperation between military and civil higher education institutions, in the field of education and scientific research.

Participants were also divided into different theme groups (so called syndicates). Representatives of Military University of Aviation took part in four syndicates: Air Force semester, Short duration module: financing and support, medium and long-term duration mobilities for lecturers: how to increase and improve them. There was also a meeting for students who shared their opinion on the mobilities they took part in and concerning their expectations for future mobilities. Students gave presentations on their past mobilities and representatives of universities discussed their research projects which are currently being conducted or had been recently completed. Finally, a photo of all the representatives from sixteen universities was taken.
